HE MAKES PLEA FOR PRESIDENT

Mr. Pou Does Not Think He Should Be Censured for Act of Subordinate.

PHILIPPINE TARIFF DEBATE

Many Other Features Dragged Into Discussion-Future of Philipino Not Brilliant.

(By Associated Press.) WASHINGTON, D. C., January 12.-Interest was injected into the Philippine ariff debate in the House of Representatives to-day by a Massachusetts "idea" tariff exposition by Mr. McCall, of that a character study of the Fillpine by Mr. Longworth, of Ohio, and by a defense of Persident Roosevelt by Mr Democrat from North Carolina Besides these there were a number of speeches delivered on the merits of the il, nearly all of which were in opposi-

bill, nearly all of which were in opposition to the measure.

During the day an agreement was reached whereby the debate is to continue for two days more. The House is to meet at 11 o'clock to-morrow and Monday, and to close general debate at 5 o'clock on the latter day. The measure will be taken up for amendment under the five-minute rule Tuesday, and doubtless disposed of on that day.

Mr. Broussard, of Louislana, opened the discussion with a speech against the bill, "By jugglery," he said, "the whole sugar product of the islands could be shipped here at a profit and the home demand there be supplied by imported sugar."

Has No Brilliant Future

Has No Brilliant Future

Mr. Longworth said there was no brilliant future for the Filipino and that his
inability to form a conception of the
duty of a public officer made self-government remote. He favored the bill as
the best means of developing the Filipino
into a condition of self-government, at
which moment he would be more than
glad to drop the Islands.

Mr. Lamar (Fördlad), nrraigned the Republican party for departing from its
foundation principle of protection. It was,
he said, this protection that had built up
the tobacco industry in his State. By the
employment of chinese in the cigar factories of the Philippines, Mr. Lamar asserted an effectual repeal of the Chinese
exclusion act would be accomplished so
far as that industry is concerned. This,
he said, would benefit only the American
Tobacco Company, Mr. Lamar denounced
the Democratic position on the bill, if
it stood for treating the Filipinos as

Mr. Clark (Florida) took issue with the position of both parties on the bill. It was not Republican because it looked to free trade. He did not concur with its own party that the Philippines were a part of the United States, and consequently entitled to have all tariff bariers removed. Concluding, Mr. Clark isserted that the bill was not meant for he benefit of the Filipino, but for the 'sugar trust."

The Mrs. Morris Incident.

The Mrs. Morris Incident.
Mr. Pou (North Carolina) declared that the \$1,900,000 campaign fund of the Republican party at the last election had made it sure that there would be no satisfactory railroad rate legislation, nor any revision of the tariff.
Turning his attention to the incident of the ejection of Mrs. Minor Morris from the executive offices of the White House, Mr. Pou expressed great regret that hysteria had been indulged in to magnify that incident.
"I was at the White House that day," he said, "and was reminded of the fact that we have had twenty-five Presidents of the United States. There were there portraits of three of them who had fal-

it is possible things may have occurred ich should not have occurred, but I not believe the President of the ited States should be criticised beise some of his subordinates may have ie a little too far."

he House adjourned until tomorrow.

The Assessment System.

from the assessed value of his property is that frequently there would be not only nothing left to tax, but the sum proposed to be deducted would likely not for exceed the assessed value. Generally speaking a loan on real estate can be safely made for an amount in excess, and frequently far in excess of its assessment. Some time since a correspondent proposed that all assessments should be made at 60 per cent. of real value. In the name of common horse sense why 60 per cent. What magic in 60? I have never yet read a statute which did not require all property to be listed for purposes of taxation at its fair cash value, 100 per cent, and yet perjury wholesale is committed whenever the assessor makes his rounds, the assessor alding and abetting and breaking his own oath. Every mother's son of them is afraid that a brother assessor in some other county will assess at a lower per cent of the real value than he, and thus make the burden of State taxes higher for his own people. So he deliberately assesses horses of a given them are worth, and would sell as soon as offered, for five times, ten times as much! And so on through this whole list.

And why does the community stand for such an absurd proceeding? Because of the game for what there is in it. Not only as between community; there is a constant effort to win a stake remitted in getting a lower assessment than the other follow. The honest man, with a desire for fairness, with a regard for the saunctive of another, is, or thinks he is, forced into the game. "They all do it, i must, in self defence."

Yes, give us a State board of equilization, Give us also a county board to and to be the per the deliberation of the substitution of the between the various townships and it.

the game. They an qo it, a must in solf defence."

Yes, give us a State board of equilization. Glye us also a county board to act the corporated towns, and a township board to equalize individual assessments. But beyond that, give us such a law that the individual who asks me 175 for a cow, and then values his to the assessor at \$20, shall go to fall.

Dublin, Va.

Thomas Sutherland.

The funeral of Mr. Thomas Suthland, who died yesterday morning at 1 o'clock, will take place on the arrival in Richmond of his son, who is on his way from Galveston to New York by sea. The ship should reach New York, on Monday, when Mr. Sutherland will be nothined of his father's death. The death of Mr. Thomas Sutherland was due to Bright's disease the was Mr. Sutherland was due to Bright's disease the was

WEATHER FRIENDLY TO THE TOBACCO CROP

Cox-Pendleton Marriage at Ashland Will Be Event of

(Special to The Times-Dispatch.)
ASHLAND, VA., January 12.—The continued damp and rainy weather tempered by fligh temperature has been exceedingly favorable for the tobacco farmers near here, and it has afforded most of them an opportunity of handling their tobacco crop at this season to great advantage. While the roads of Hanover leading to Richmond are in bad condition the farmers have "taken time byl the forelock" and hauled to market anyhow. It is not generally known that Hanover is one of but two counties in Virginia producing what is known as a

anyhow. It is not generally known that Hanover is one of but two counties in Virginia producing what is known as a high grade of sun-cured tobacco, and there is a growing disposition to market some of that crop throughout a warehouse, which may be built at Ashland. It is reported that a real estate and improvement company is being organized for the purpose of extending property improvements here in the way of laying out avenues, planting trees and building small houses. Rev G. W. M. Taylor and Mr. McNeal are fostering the plan. Dr. C. B. Jones is reported to have recently disposed of his town lot of ten acres to Norfolk parties. It is said that Mrs. I. N. Vaughan intends building several small residences in Ashland in the spring on a portion of her town lots.

The periodical sermons of Dr. R. H. Bennett, of Randolph-Macon College, are creating more interest and discussion in Ashland these days than anything else. He is the professor of theology in the college, but occasionally preaches in the Duncan Memorial Chapel and for other denominations. On account of his extensive travel and deep study, besides his experience as assistant for some time to Blahop Coke Smith, he has been wonder-

ly, with \$30 in cash. There was no mance.

The family of Mr. J. Lindsay Patton is in Gainesville, Fig., where they have been recently joined by Mr. Stuart Leake, who will remain with them during the winter months.

months.

Mrs. William Hall has with her her daughter, of Afton.

Mr. John Addison returned to school at Woodbury Forest, but was taken sick and has returned to Ashland.

Mrs. Belle Willingham, daughter of Dr. Willingham, of Richmond, is the guest of Miss Annie Hunter.

Mr. Merritt Lear is visiting in Ashland to-day.

of Miss Annie Hunter.

Mr. Merriit Lear is visiting in Ashland to-day.

Miss Bessie French, of Richmond, is the guest of Miss Elizabeth Pendleton.

Mr. Ernest Moss of upper Hanover, has moved to Richmond, where he has secured employment.

The friends of Mr. James Ratcliffe will be interested in learning that he has been transferred by the Richmond, Fredericksburg and Potomac Rallroad Company io his old position as operator at Ashland.

Mr. Richard Irby, an old Randolph-Macron student, has left for his home near Blackstone, where he expects to engage in farming.

Mr. Robert Harris, of Farrington, this county, killed a fine buck deer during a recent hunting trip.

Miss Winnie W. Harlow and Mr. Jim Mitchell, of this county, were married last week in Washington, D. C.

The stockho' 'ers of the Hanover Bank have been called in annual meeting next Monday, February 5th, in the bank building here. The bank is in a prosperous condition.

The regular meeting of the Ladles' Ald Society of St. Jamess Episcopal Church, of Ashland, which has been suspended

Southern's Gross Earnings.

Foreign Commerce for 1905.

NEW FACE IN CONGRESS.

WILLIAM W. COCKS.

Congressman from New York.—William W. Cocks was born at Westbury, Long Island, N. Y., on the 24th of July, 1861, and is a descendant of old colonial families who settled on Long Island in 1642. He was educated at Swarthmore College, being a member of the class of 1851. A farmer by occupation, he owns farms on Long Island and a ranch in Wabaunsee county, Kan. He has always been identified with public affairs of his community, having been elected commissioner of highways of the town of North Hampstead in 1894 and re-elected until he resigned when elected State sena tor in 1900. In 1903 he was elected member of Assembly. In 1904 he was elected member of Assembly, In 1904 he was elected member of the State of New York.

TURNING THE DESERT *INTO A GARDEN LAND*

The National Government's Vast Undertaking---Lofty Dams Which Will Be Among the Engineering Wonders of the World---Storing the Life Giving Water That It May Be Carried to the Farms.

That It May Be Carried to the Farms.

(Special Correspondent to The Times-Dispatch.)

WASHINGTON, Jan. 12.—There is quietly going on in the wilds of the Great West a mignty work understand by the Interest and the wilds of the Great West a mignty work understand by the Interest and the Wilds of the Great West a mignty work understand by the Interest and the Wilds of the Great West a mignty work understand by the Interest and the Wilds of the Great West a mignty work understand by the Wilds of the Great West and the Wilds of the Big Horn Country of Wyom and the Book of the Mils. And all this is being brought about that Ilfe-giving water may be conducted to the parched soil in regions now destitute of vegetation.

"Tranger" who yields a pick and shovel in the arduous labor of making ditches to carry water to his 199 acre "homestead" out in the western plains, is not as a rule, aware that some four thousand years as the ware to be some and the southern part of Asia, especially in India, archaelogists are constantly uncartised it on a large scale at the yory dawn of history.

That irrigation has been and will be of their fields. In Expt and the southern part of Asia, especially in India, archaelogists are constantly uncartised it on a large scale at the yory dawn of history.

The constant of the warm of the wa

enjoying.

During the late "eighties" of the last century the national government began to investigate the possibilities of scientific irrigation. The result of this investigation was the discovery that there were from 125,00,000 to 200,000,000 acres of the vist waste lands of the West susceptible to reclamation by irrigation, an area six times that of the improved farm lands of the New England States, New York, New Jersey, Pennsylvania, Dalaware, Maryland, Viginia, North Carolina, South Carolina, Georgia and Florida Combined. Since that time the government has been more or less interested in Irrigating projects, but it was not until Theodore Roosevelt become the head of the nation that the task of changing our desolate deserts into garden spots was undertaken in a systematic and earnest manner. The President, after becoming convinced of the enormous benefits that would accue to the West from irrigation conducted on a large scale, arged it upon Congress in his first message, in his strenuous fashion, and that august hody became imbued with some of his own enthusiasm and voted large appropriations to carry on the work of reclaiming Nature's waste places in our western territory. With the large fund available under the National Irrigation Act, the work has been pushed along vigorously and effectively, with the result into today of the made to yield "bumper crops" of both cereals and forage sturf.

One of the most remarkable feats of reclaimation being put through by the

MR. HUBER AN HEIR.

Will Inherit Handsome Sum

From His Father's Estate. Mr. Harry Huber has just returned home from New York, where he went to attend the funeral of his father, Mr.

Joseph Huber.

Mr. Huber, the elder, died last Saturday, and left an estate valued at \$300,000. His heirs are Dr. Frank Huber, Dr. Joseph Huber, Charles Huber, Harry Huber, Otto Huber, Emil Huber and Dr. Fred Huber. Three of the sons are practicing physicians and surgeons in New York. Otto and Emil Huber are Brooklyn husiness men. Councilman Harry Huber, of this city, came here about fixen years ago. For many years the late Mr. Huber was a member of the firm of Werner and Huber, bookbinders, of New York city. He retired from active business life in

age. A high grade product, that is always good. ALL GOOD DEALERS SELL IT "B. & B." Atlanta.

A BAD DAY FOR GAYNOR-BREENE

Two Opinions Delivered Yesterday-Address to Men Under Indictment.

EVERY INCH IS CONTESTED

Counsel for Prisoners Are Letting No Advantage to Clients Slip By.

(By Associated Press.) SAVANNAH, GA., January 12.—There were two important developments in the trial of the Gaynor-Greene case to-day. jurisdiction of the court, and the other murrers of the defendants to indictment

The grounds of the demurrer were num erous, the most important being that the indictment was not found within three indistrement was not found within three years after the commission of the alleged offense; that it failed to specify how the defendants had absented themselves from the jurisdiction of the court when they were in New York; that the indictment alleged that the work in the harbor did not come up to the specification, but did not particularize wherein it was inferior; and that the statute upon which he indictment was predicated was unconstitutional in that it made penal a fraud against the United States.

Juage Speer, in the Federal Court to-day, immediately on its convening, read his opinion upon the plea of counsel for Greene and Gaynor to the jurisdiction of the court. This opinion was adverse to the defendants whose petition, that they be discharged from custody, was denied.

Fighting at Every Turn.

Fighting at Every Turn.
Colonel Meldrim, of counsel for the defense, excepted to the opinion of the court. He followed with an argument upon a demurrer to indictment No. 271 upon the chief ground that it was not specific in its charge that the defendants had awinded the government, failing to show just wherein they had not compiled with the specifications of the harbor contracts they had secured for the improvement of the harbor at Savannah whereby they and others are alleged to have profited to the extent of nearly \$2.000,000. Special Assistant Attorney-General Erwin replied to the argument upon the demurrer and was answered briefly by Colonel Meldrim, and upon the conclusion of the speech of the latter, Judge Speer announced that he would overrule the demurrer.

Adjournment was taken until to-morrow

Ignorance is Bliss.

Only one marriage license was granted by the clerk of the Hustings Court yes-terday. Native born Virginians have an aversion to getting license on Friday, and as a general rule the clerk of the court gets a rest on that day, so far as issuing marriago licenses are concerned. However, there was an application yesterday by a couple who do not know and do not care of the Virginia superstition. Gabriel Zox and Rene Bloom wors licensed to marry. They are natives of Russia, and have not lived in this country quite long enough to know about the Friday superstition, and they are probably just as happy as any native who skidped Friday. skipped Friday.

Mrs. Cornelia Hendree.

Mrs. Cornelia Hendree.

Mrs. Cornelia Hendree, the mother of Mrs. Burton, who of Bishop Lewis Burton, who was for many years rector of St. John's Church, of this city, died in Atlanta, on January 6th.

She was the widow of Dr. George B. Hndree, of Richmond, later of Alabama. Mrs. Hendree was the daughter of Edward Courtensy Paine, of Ballimore, who, having removed South, was called the Nestor of the Georgia bar.

Pesides her youngest daughter, Mrs. uBrton she is survived by the wife of Robert E. Park. State Treasurer of Georgia, and by the wife of Colonel Z. D. Harrison, clerk of the Supreme Court of Georgia, both resident in Atlanta. Her. only son fell as a captain of a Confederate company in the battle of the Wilderness when 19 years of age.

MR. WALLAGE MAKES NOTABLE DISCOVERY

Accomplished Antiquarian Gives New Interest to Chim-

borazo.

borazo.

The story which Mr. Charles M. Wallace, Sr., has prepared for to-morrow's Times-Dispatch in his sesies on "Richmend in By-Gone Days," will interest every man, woman and child in and around the city, if not in the entire State. Mr. Wallace, through access to records which few but students have ever seen and from a study of Richmond's topography which probably has never been equalled, has reached some startling discoveries about the earl yhistory of the site of this city and of Powhatan's village. All theories which Mr. Wallace is assured were guessed at in the great instance and followed blindly ever since are thrown to the winds and Mr. Wallace gives his views about the matter, with reasons to back them up, actually changing history. Lorik est for the story to-morrow, accepted

person."

After his arraignment, Humphrys was in Assistant District Attorney Garvan's office for nearly three hours. The prisoner admitted that he was the "Mr. Collins" who figured in the negotiations with Barnard and Clark, the brokerage firm, through which Scion tried to unload some of the counterfeit certificates. At the close of this conference in the district attorney's office, Humphrys said: "I have told only the truth to the district attorney, The story I mean to give him to-morrow will be even more astonishing. I am not a stock swindler as has been said about me. I have known Seton only about six months, having met him here in New York. He has a steam yacht in the harbor, and it was his intention to make his escape on that, if he had not been caught bythe detectives, I am not prepared to say that Seton is at the head of a gan of Wall Street swindlers, but there are reasons why I think he is. To-morrow I mean to give the district attorney all of the facts."

COTTON STATISTICS.

Interesting Figures From the Report of Secretary Hester.

(By Associated Press.)

NEW ORLEANS, Jan. 12.—Secretary Hoster's weekly cotton statement, issued to-day, shows for the twelve days in January a decrease under last year of 29,000 bales, and a decrease under the same period year before last of 129,000 bales. For the 134 days of the season that he elapsed the aggregate is behind the same days of last year 1,000,000 bales, and behind year before last 49,000 bales. The amount brough in the same thing year before last 49,000 bales. The amount brought into sight during the past week has been 125,503 bales against 240,306 for the same deys last year; and 279,669 year before last. The movement since September 1st shows receipts at all United States ports 5,535,305 bales against 6,240,152 bales last year. Overland across the Misslespip, Ohlo and Potomac rivers to northern mills in Canada, 435,437 bales against 53,559 last year.

Air Tools for Use in Panama. The Government engineers are pro-viding air tools for use on sections of the Panama Canal. Compressed air will

be furnished by portable outfits weighing about four tons. These will consist of a 16 horse-power gasoline engine, a 60-foot air compressor and an air receiver, all mounted upon a fourwheel truck The engine and compressor cylinders

will be cooled by water circulated by a small pump, and drawn from an open-top rectangular tank holding about two barrels.

barrels.

This water will be cooled by being discharged in the form of spray over a sheet of burlap, supported in an upright position, thereby giving the water an opportunity for cooling by evaporation by exposure in a thin sheet in the open air.

Our Treasure. Her hair, alike her nose, is red; She is not fair of face; Her form, when all is done and said, Possesses little grace.

She's s. com neat about her dress; Her gurments never it, And, furthermore, I must confess, She drinks a goodish bit,

And yet I love her. Come what may, I'll ulways hold her dear. For she's our cook, and, strange to say, She's been with us a year. —Louisville Courier-Journal.
